SENSIT® CO

Use SENSIT® CO for Carbon Monoxide testing in residential and commercial buildings.

SENSIT® CO is perfect for testing ambient air and flue gas samples. The instrument features a powerful pump, hot air probe and bright LCD display.

SENSIT® CO is available with an oxygen sensing feature. When so equipped, the instrument will simultaneously display CO and O₂ readings for thorough flue gas testing. Ask for the **SENSIT® CO PLUS**.

An infrared communication window allows you to easily print test results to an accessory printer or transfer the data to PC.
